

Functional & Non-Functional Requirements Document

Project: Customer Management System

Author: John Doe

Date: 12-Sep-2025

1. Functional Requirements

- 1.1 The system shall allow users to register with email, phone number, and password.
- 1.2 The system shall support login via username and password.
- 1.3 The system shall allow administrators to add, update, and delete customer records.
- 1.4 The system shall generate monthly reports in PDF and Excel formats.
- 1.5 The system shall allow searching customers by name, email, or phone number.

2. Non-Functional Requirements

- 2.1 Performance: The system should support at least 1000 concurrent users.
- 2.2 Security: All sensitive data shall be encrypted in transit and at rest.
- 2.3 Availability: The system shall be available 99.9% of the time (excluding planned downtime).
- 2.4 Usability: The user interface shall be simple, responsive, and mobile-friendly.
- 2.5 Compliance: The system shall comply with GDPR regulations for customer data privacy.

3. Acceptance Criteria

- User can successfully register and login.
- Admin can add, update, and delete a customer record.
- Reports are generated within 5 seconds.
- System remains available during high traffic conditions.
